Heat treatment in perfection

ABH Berger Härtetechnik GmbH & CO. KG in Memmingen, an independent subsidiary of the Berger Holding, operating under the same roof, has become one of the leading providers of heat treatment services in Germany.

ABH Berger Härtetechnik GmbH & CO. KG works for numerous renowned companies in the automotive and mechanical engineering industry. Due to rising demands, it recently extended its capacities once more by around 30%. Two more batch furnace lines were purchased.
