» New innovative Milling Center

World premiere, showcased at this year's
AMB in Stuttgart

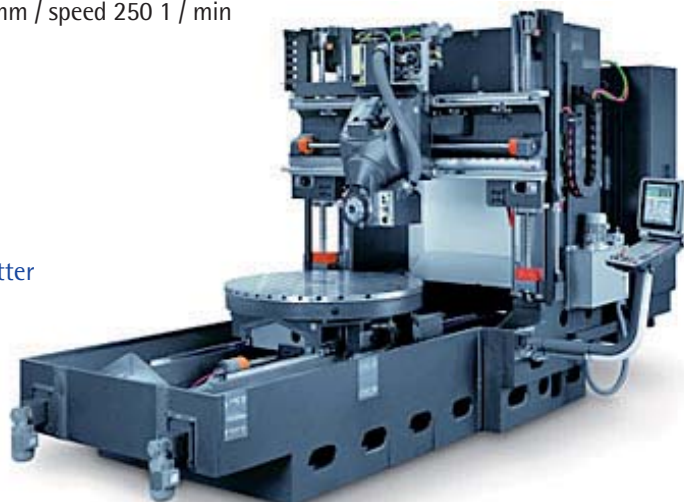

DMU 210 P

This unique milling and turning center further extends the range of services offered by the Berger group of companies. This allows us to now produce large rotation-symmetric parts with diameters of up to 1800 mm.

- Scope of parts: Large rotation-symmetric parts
- Technical specifications: Turning operations \varnothing 1800 x 1000 mm L
Cubic milling operations 1800 / 1500 / 1000 mm
- Working space: X 1800 mm Y 2100 mm Z 1250 mm
- Table diameter: 1850 mm / speed 250 1 / min
- Max table load: 4 t

greater – stronger – faster – better
