#### 15 new apprentices

15 new apprentices - three industrial clerks, one industrial electronic technician specializing in instrument engineering, one industrial mechanic and ten machining technicians specializing in automatic turning - have started their apprenticeship at Berger Ottobeuren. Currently, the Berger group employs 53 apprentices in order to cover the increasing demand for skilled workers. This is 18.9 per cent of the total workforce, an increase of 4.5 per cent as compared to 1998. The picture shows the management of the Ottobeuren plant, Karin Berger-Haggenmiller (lower right), Alois Berger (top center) and Anton Martin, the training manager (top right) with this year's new apprentices.
